

ORCH

Organoid Research Club Heidelberg

ORCH

Organoid Research Club Heidelberg

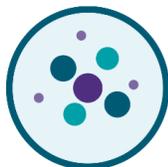

The Organoid Research Club Heidelberg (ORCH) connects researchers from all disciplines who work on or with organoids.

Our regular meetings are an opportunity—especially for early- and mid-career researchers—to:

- present their work
- exchange ideas
- connect with other researchers

The meetings take place in a casual setting with pizza and beer.

ORCH also aims to collaborate with other initiatives in Heidelberg and beyond dedicated to the advancement of organoid research. Upcoming events are shared via mailing list (to join contact one of the Organizers).

Dates & time

- Thursday, 16 April 2026
- Thursday, 9 July 2026
- Thursday, 22 October 2026
- Thursday, 21 January 2027

Location

Seminar Room 42 (SR042)
BioQuant, Heidelberg University
Im Neuenheimer Feld 267
69120 Heidelberg

Scientific Organizers

Lisa Gölz, Dr. rer. nat.

Junior Group Leader
Tissue Engineering and Toxicology I
Institute of Pharmacology
Faculty of Medicine of Heidelberg
University

E-Mail:

lisa.goelz@pharma.uni-heidelberg.de

Ramsey Najm, PhD

Scientific Head of the
Organoid Engineering Lab and Facility
Precision Organoid Engineering for
Multi-Organ Interaction Studies
(POEM)

E-Mail:

ramsey.najm@bioquant.uni-heidelberg.de

Dr. Nils Schütz

Post-Doctoral Researcher
Bio-/Technology & Theological Ethics
Faculty of Theology at Heidelberg
University
Max Planck School “Matter to Life”
